Source: P.E. Lovejoy (2000), *Transformations in Slavery*, CUP, pp. 19, 26, 47, 142 and 147. His figures for the Americas are bigger than those of Curtin (see Table 4-4). Curtin's total for 1500-1870 is 9.4 million compared to more than 11 here. Part of the difference is that Curtin shows arrivals whereas Lovejoy does not allow for deaths in transit. The difference is also due to Lovejoy's use of the Du Bois archive in Harvard. So far, this appears to be available only as a CDROM, without the meticulously documented description of the source material which Curtin provided.
